speeds up to
6Mb

\$50
\$62 w/ Static IP

up to 6MBs download
up to 768Kb uploads

*Service and speeds are subject to availability. Internet speeds represent maximum network service capability speeds. Actual customer speeds may vary due to wiring, distance, and other factors. *Bronze & Silver Plans each consist of multiple speed tiers. Milwaukee PC will provide the fastest tier available at the installed location within the plan group purchased.*

How much speed do you need?

Based on common usage requirements from Netflix, we recommend the following:

3MB	For streaming SD quality
5MB	For streaming HD quality (720p)
25MB	For streaming Ultra HD quality

Available in more locations than ever!
Check with a sales associate to determine if we can service your address.

New Account Term is a 1-year commitment. Early termination fee is \$100 or remainder of commitment, whichever is less. At the end of term, then current rate applies. Promotional offers are only available to new internet customer accounts. At termination of service, customer must return modem/router equipment, or be assessed a fee of \$100. A missed appointment fee of \$100 will be charged if insufficient notice is given of a conflict for technician installation or repair. Existing Milwaukee PC Legacy Internet Service customers may upgrade to Residential Internet Service 2.0. This would require a new 1-year commitment and modem replacement & installation, see a sales associate for more information. Billing begins on service activation date. Service Plans not available in all areas. Actual downstream and upstream throughput speeds will vary. Acceptance of Terms of Service required. Other restrictions apply. Access speed or sync rate is measured between network interface device at customer's location and the Central Office or Remote Terminal. The actual speed achieved will depend on several factors, including line conditions and loop length. Milwaukee PC does not guarantee uptime for Internet Service, however uptime is typically 99%. Milwaukee PC is an Internet Service Provider, and as a result is not responsible for structured telephone wiring or equipment. Milwaukee PC is a second tier provider relying on the AT&T network for connectivity. Milwaukee PC does offer a 25-Day cancellation of service from initial activation without penalty. Disconnection of service requires 30 days notice for processing.
